## Literary Terms Project

### Part 1

You will be assigned **one literary term** from the list below. Your task is to explain the term and locate examples in several works of literature. You will share your explanation of the term and examples by posting this information on the class **wiki** (<http://6thgradetms.pbwiki.com/>). You can type the information directly into the wiki or upload it in a file format. We will discuss this further in class.

Your literary term and examples are due **Dec. 10**. You will **present** this information to the class, and you will be the teacher of this literary term so make sure you have done a thorough job explaining it (make sure you know what you are talking about). For your literary term, locate **at least five examples from novels, two from poems, one from a drama, and two from short stories**. You should include the **citation** for the piece of literature as well as the **page, paragraph, stanza, and/or scene** in which it is found.
